DRIVEN CARE.**

24-hour Oral Care Kits
A Standardized Approach to Quality

A SMART DESIGN FOR ORAL CARE.

We have incorporated customer ideas into the redesign of the Medline 24-hour Oral Kits so they work harder and smarter for you.

Everything you already liked, now enhanced.

Products in each kit are stacked in order of use, with each item packaged in its own color-coded tray. The setup tray is labeled in gray, toothbrush cleanings are blue and suction swab cleanings are green. Overall packaging for the kit itself is 22% smaller to save space in the patient's room. Q2 and Q4 kits are available.

Three easy ways to store kits.

The addition of a plastic strap allows you to hang kits on the wall or ventilator, or you can place them on the bedside table.

Reduce clutter.

Tabs on the top of the kit now give you a place to store the yankauer between steps. Each kit also has a slot on the side for vertical storage, if preferred.

SET-UP TRAY

Drive compliance with educational packaging.

Kits are labeled to show the tools and timing for performing each step of the oral care protocol.

Provide care with added confidence.

The universal suction handle is compatible with all Medline suction components. An added clip allows components to click easily into place so you know they are tight and secure.

Ordering Information.

24-hour Kits with Hydrogen Peroxide.

Item Number	Description	EA/CS
MDS606802HP	Q2 – 1 setup kit (covered yankauer, suction handle, y-connector), 2 suction toothbrush kits, 10 suction swab kits, 4 oropharyngeal catheters, 12 hydrogen peroxide rinse (10 ml packet), 12 mouth moisturizing gel (3 g packet)	10
