Skin protection made easy

Skin health can be a barometer of your patients overall health, and maintaining it is a vital step in promoting better outcomes. Your busy caregivers need easy-to-use solutions that help guard against complications like dry skin, pressure injuries, fungal infections and more.

Our Aloe Vesta and Sensi-Care lines were made to clean, moisturize and protect skin—helping your caregivers support overall patient wellness.

Made from high-quality ingredients, they are part of an easy, proven and intuitive **three-step skincare system**, expertly developed to meet three objectives:

- Create efficiencies
- Promote skin integrity and help reduce risk of complications
- Ensure consistency of care

Aloe Vesta

Aloe Vesta is specially formulated with natural botanicals to gently clean, moisturize and protect fragile skin.

Cleanse

● Cleansing foam

- A mixture of surfactants for effective yet mild removal of a broad range of oil, soil and other skin debris
- Humectants soothe and moisturize fragile skin
- Convenient no-rinse cleanser for body and hair
- Contains hydrolyzed collagen, an effective skin conditioner

● Body wash and shampoo

- A mixture of surfactants for effective yet mild removal of a broad range of oil, soil and other skin debris
- Contains botanicals to soothe irritated skin
- Humectants attract and retain moisture in the skin
- No-rinse bed bathing option for added convenience

● Perineal/skin cleanser spray

- Minimizes rubbing with special cleansing agents that dissolve soils and remove odors
- Contains botanicals to soothe irritated skin
- No-rinse formula for easy clean up

Moisturize

● Daily moisturizer

- 3% dimethicone temporarily protects and helps relieve chapped or cracked skin and lips
- Contains petrolatum, which has occlusive skin-barrier properties and a humectant to promote skin hydration
- No fragrances or dyes

Antifungal Treatment

Clear antifungal ointment

- Contains 2% miconazole nitrate to treat most superficial fungal infections
- Includes petrolatum to help repel moisture from urine and feces
- Emollients and conditioners help relieve itching, scaling, cracking and discomfort
- Rubs in clear

Protect

● Clear barrier spray

- 36% petrolatum temporarily protects and helps relieve chapped or cracked skin
- Protects minor skin irritation associated with diaper rash and helps seal out wetness
- Sprays from any angle for all-over protection without rubbing into skin
- Formulated without alcohol preservatives and fragrances

● Protective ointment

- 43% petrolatum moisture barrier to seal out moisture and protect skin
- Contains mineral oil and lanolin for skin conditioning
- Contains humectants to attract and retain moisture in the skin
- Rubs in clear

Sensi-Care

Formulated with less fragrance and added humectants, Sensi-Care is made to effectively address skin-related issues.

Cleanse

● Body wash and shampoo

- Formulated with mild surfactants, humectants and emollient
- No-rinse bathing and shampooing option for added convenience
- Moisturizes and conditions
- Reduces odor

● Perineal/skin cleanser

- No-rinse cleanser with spray format
- Contains a botanical to soothe irritated skin
- Contains hydrolyzed collagen, an effective skin conditioner
- Humectants to attract and retain moisture in the skin

Moisturize

● Body cream

- Contains 30% petrolatum in addition to 1% dimethicone for combined skin protection
- Includes glycerin to promote skin hydration and hold moisture
- No fragrances or dyes
- Temporarily protects and helps relieve chapped or cracked skin and lips

Protect

● Protective barrier

- 49% petrolatum provides occlusive skin barrier properties and protects skin from minor irritants
- 15% zinc oxide helps treat and prevent diaper rash
- Adheres to and protects irritated skin in the perineal area
- Contains carboxymethylcellulose sodium to promote adhesion to irritated skin caused by incontinence

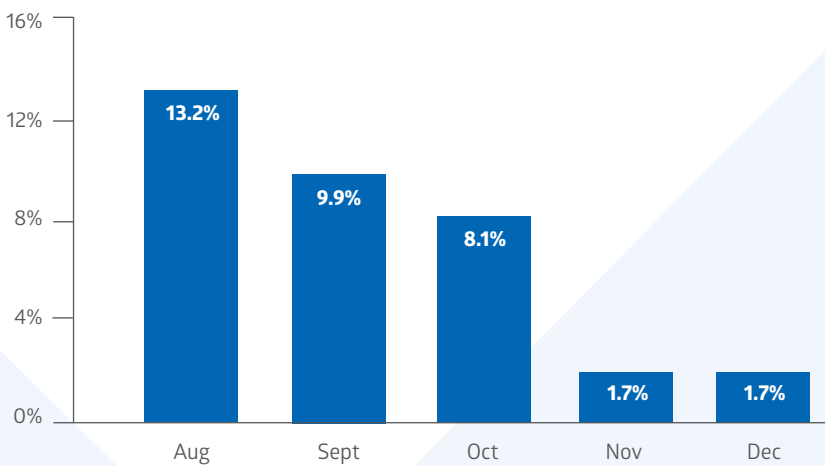

● Clear zinc

- 5% dimethicone helps care for vulnerable skin by repelling water to help keep skin dry
- 5% zinc oxide protects and helps relieve chapped or cracked skin
- Goes on clear to allow for visual inspection of the skin

Protection that's proven

Using evidence-based skincare solutions is one of the most effective ways to help manage skin-related complications. Aloe Vesta and Sensi-Care have been clinically proven to help reduce the incidence of pressure injuries, excess patient days and costs when used in a standardized clinical pathway.¹⁻⁷

87% Pressure ulcer reduction

A long-term example using a standardized pathway of care in addition to other proven modalities reduced the incidence of pressure ulcers by up to 87%. (P=0.02)¹

	Facility-acquired pressure ulcer rates				Estimated potential savings	
	Hospital discharges	Before implementation	After implementation	% Reduction	Patient days	Costs (\$ Million)
Facility A ^{3,4,6}	14,848	13%	3%	77%	6,043	\$15.9
Facility B ⁴⁻⁶	13,636	19%	4%	80%	8,032	\$2.12
Facility C ^{2,4,7}	21,387	35%	4%	90%	26,813	\$70.7

Using protocols of care in addition to other proven modalities, the following hospitals reduced their facility-acquired pressure ulcers (PUs), reducing excess patient days and costs.²⁻⁶
