

Medline Electric Breast Pumps

Make breastfeeding simple with easy-to-use pumps.

Our quiet, lightweight and portable electric pump offers single and double pumping capability. The 100% anti-backflow design helps to eliminate wasted milk while the 9 suction levels help to customize mothers' pumping experience and simulate babies' natural nursing rhythm.

- Choose from 4 modes: Massage Mode, Multitronic Suction Mode, Suck Simulation Mode, and Express Mode. Each mode offers 9 adjustable levels to match user preference.
- LED display with touchscreen
- Rechargeable lithium battery allows the pump to be portable
- USB charging cable—can be supported by an AC adapter, computer or power bank
- Anti-backflow design prevents blocked and wasted milk
- Includes BPA-free milk bottles and storage bags

- 10 breast milk storage bags
- 1 power cord (5 ft)
- 1 USB line
- 1 AC adaptor
- 1 user manual

Manual Breast Pumps

These easy-to-use devices pump one breast at a time via a flange and manual lever that creates suction. These pumps are light weight and smaller than electric pumps and easily fit into a purse or carry-on for an outing or travel.
