

# Disposable wipes for personal care

Standardize quality of care with a complete portfolio.

**A wipe  
for every  
need**

# Why choose disposable wipes for incontinence care?

With more than **50% of long-term care residents** experiencing some level of incontinence,<sup>1</sup> choosing the right supplies is crucial for delivering optimal, cost-efficient care. If not properly managed, incontinence clean up can pose issues for residents, caregivers and facilities.

# Medline disposable wipes are the #1 wipes in healthcare

As the leader in incontinence care, we understand your challenges. That's why we developed a comprehensive portfolio of disposable cleansing wipes to meet all your resident care and budgetary needs.

## PROBLEMS

## SOLUTIONS

### Infection risk

- Using traditional cleansing methods (wash cloth, basin, etc.) introduces **care variability** into cleansing processes
- 98% of re-used basins grow potentially harmful bacteria, making them sources of **infection**<sup>6</sup>
- \$25k per **f-tag fine** can be imposed for improper practices<sup>6</sup>

Urinary Tract Infection (UTI)—**\$21k per resident**<sup>5</sup>

### Holistic portfolio of disposable wipes

#### Wet Wipes

Experience the highest standard of care with our pre-moistened, aloe enriched cleansing cloths. One cloth gently cleans, moisturizes and reduces odors.

#### Dry Wipes

These versatile cloths can be used for incontinence clean up, surface cleaning and more. Use with or without different solutions such as water, soap or moisturizer.

#### Flushable Wipes

Available in wet and dry options. Our biodegradable wipes are soft on skin, durable and convenient—plus safe to flush.

### Compromised skin health

- Insufficient cleansing puts residents at risk of **IAD**
- In the general adult population, up to 4.5% may be allergic to fragrance materials, and in consecutive patients patch tested for suspected **contact dermatitis**, the frequency may reach 20% to 25%<sup>7</sup>
- Open packs can dry out before use causing waste and **inadequate resident cleansing**
- Basin bathing is more likely to result in **skin breakdown** than pre-packaged wipes
- Reusable washcloths are **abrasive to skin's moisture barrier**

Incontinence-associated Dermatitis (IAD)—**\$23k per resident**<sup>2</sup>

### Retains 20% more moisture

Our **double layer closure system** is designed to help wet wipes retain up to 20% more moisture compared to leading competitor wipes, which may contribute to longer-lasting freshness.<sup>4\*</sup>

\*Study completed over a 30-day period on product stored at room temperature. Qual-125513.

### Skin healthy formula

- >98% water enriched with soothing aloe—leaves skin feeling hydrated and refreshed
- Hypoallergenic, pH balanced and fragrance-free

- Double layer closure system**
1. Hard, flip-top lid — — — — +
  2. Peel back label — — — — +

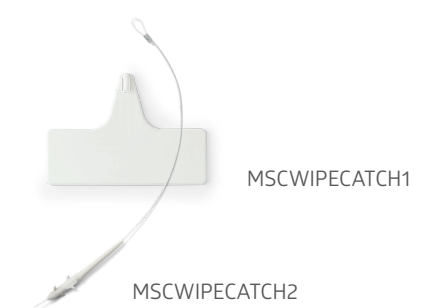

### Plumbing and utilization risks

- Inappropriate flushing of wipes can **clog pipes**
- Over utilization of products can **increase costs and cause inconsistent care**

Clogged pipes—up to **\$500 per instance**<sup>3</sup>

### Staff education and tools

- Flushable and non-flushable signs** clearly communicate proper disposal method
- Easy-to-use flushing compliance tool** captures wipes that should not be flushed
- Flushable wipes pass 7 INDA/EDANA testing requirements** to confirm their ability to disintegrate, biodegrade and clear septic systems and sewer lines

# You have more needs. We have more solutions.

Medline offers an extensive portfolio to respond to any of your cleansing needs.

## Wet Wipes

Quilted—Medline's largest and strongest wipe

Item No.	Scented	Pkg. Type	Size	Pkg.
MSC263625	No	Flip-top lid	8" x 12"	48/pk, 576/cs

Standard 8" x 12"—Durable wet wipes are ideal for everyday clean-ups and incontinence care

Item No.	Scented	Pkg. Type	Size	Pkg.
MSC263554	No	Flip-top lid	8" x 12"	100/pk, 600/cs

Standard—Durable wet wipes are ideal for everyday clean-ups and incontinence care

Item No.	Scented	Pkg. Type	Size	Pkg.
MSC263854	Yes	Flip-top lid	8" x 10"	100/pk, 600/cs
MSC263954	No	Flip-top lid	8" x 10"	100/pk, 600/cs
MSC263654	Yes	Flip-top lid	8" x 10"	48/pk, 576/cs
MSC095280	Yes	Peel and reseal	8" x 12"	24/pk, 576/cs

Basic—Wet wipe for everyday needs

Item No.	Scented	Pkg. Type	Size	Pkg.
MSC263754	Yes	Peel and reseal	8" x 10"	68/pk, 816/cs

## Flushable Wipes

Wet Wipes—Biodegradable and safe for septic systems and sewer lines

Item No.	Scented	Pkg. Type	Size	Pkg.
MSC263840	No	Flip-top lid	8" x 10"	48/pk, 576/pk
