

Model 177 Irrigation Syringe

HCPCS:

- The Model 177 Irrigation Syringe is efficiently used in various E.N.T irrigation procedures
- Small, malleable tube permits deep, yet painless introduction into external ear canal
- Regulate flow by placing finger over small hole in head of instrument if air pressure is 20 psi or under, then stream will stop when finger is removed
- Used by E.N.T doctors, medical doctors, research laboratories, veterinarians
- Can be operated by the No 630 or a No 1 bulb
