The HurryFlex replacement cane tip transforms your favorite single-point walking cane into a HurryCane in just seconds. Simply remove your old cane tip, add the three-point base and tighten to enjoy the added stability of HurryCane's pivoting Steadi-Grip base with three cross-hatched feet for all-terrain traction. The walking cane tip's tripod design allows your cane to stand on its own and within reach when you need it. A great alternative to large quad base canes, these compact rubber cane tips are lightweight for comfortable use.

- Transforms Single-Point Canes: Add this replacement cane tip to your single-point cane to turn it into a self-standing HurryCane.
- Freestanding Design: Self-standing cane tip lets your cane stand on its own so it's always by your side when you need it
- Enhanced Stability: Tripod cane base features three points of contact for all-terrain traction, plus a pivoting base for additional stability
- Lightweight and Compact: These rubber cane tips are 54 percent lighter and 80 percent smaller than large, quad cane tips, while offering incredible support
- Tool-Free Installation: The 3-point cane tip installs in seconds, no tools necessary
