

# Medline Laryngoscopes

Comprehensive solutions for intubation.

**Shine a light  
on better  
patient care**

# Clear the way for any situation

Whether you're performing a routine intubation or opening a difficult airway, laryngoscopes illuminate a clear view for reliable care. Medline offers a comprehensive product portfolio that includes quality, easy-to-clean reusable, and single-use blades that can help combat the potential risk of cross-contamination.

## Procedure Efficiency

- Complete compatibility across all Konig Reusable Fiber Optic and ClearWay single-use blades and handles
- Konig Reusable Fiber Optic and ClearWay single-use blades and handles built to ISO 7376 Green Standard System specifications
- Full range of Miller, Macintosh, and specialty blade sizes
- Multiple handle sizes to fit all user preferences

## Reliable Performance

- Excellent visibility
- Consistent light transmission
- Limited lifetime warranty

## Patient Safety

- Easily disinfected reusable blades
- Single-use blades reduce the risk of cross-contamination

# ClearWay™

## Single-use Fiber Optic Laryngoscope Blades

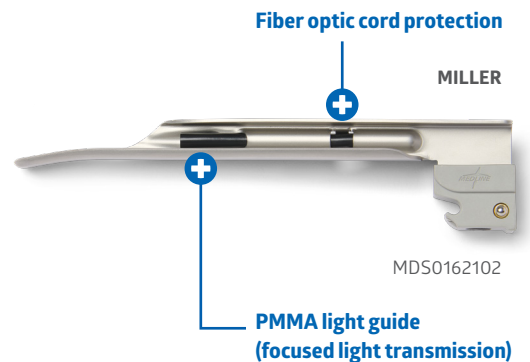

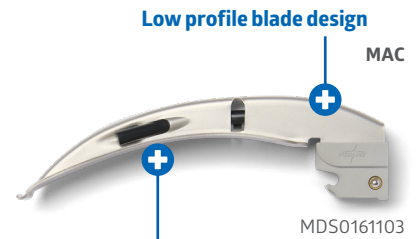

- Eliminate time, reprocessing steps, and costs related to disinfecting reusable blades
- Single-use laryngoscope blades save time and costs while reducing the risk of cross-contamination
- Individual, clear pouches make it easy to identify blade size and type
- Conform to ISO7376:2020 standard
- Manufactured from corrosion-resistant, non-magnetic, high-quality stainless steel and high-impact-resistant acetal plastic

### Single-use Mac Blades

Item No.	Description	Pkg.
<b>Single-use Mac Blades</b>		
MDS0161100	Mac 0 Blade	10/bx
