Reusable Underpads

PerforMAX™ LT Reusable Underpad

- Breathable polyurethane film helps block fluid, but allows moisture vapor to escape, creating a cooler, drier and more comfortable patient environment
- Swift-Dry top layer wicks fluid in quickly and moves it to the center core
- Super absorbent core disperses fluid throughout the pad so the top feels dryer quicker
- Bonded construction thins the pad for less bulkiness with no decrease in absorption
- Lays flat with no bunching or rolling

Item No.	Description	Pkg.
MDTIU7SEFBLU	34" x 36", Poly, Moderate Soaker, Green Face	2 dz/cs

PerforMAX™ Reusable Laminated Vinyl Underpads

- Contains all the absorbent and stain-free features of the PerforMAX LT, but is fabricated with a laminated vinyl film instead of the polyurethane layer in the PerforMAX LT
- Swift-Dry top layer helps wick fluid in quickly and moves it to the center core
- Super absorbent core helps disperse fluid throughout the pad so the top feels dryer quicker
- Bonded construction helps "thin" the pad for less bulkiness with little decrease in absorption
- Lays flat with minimal bunching or rolling; resists stains for more uses per pad

Item No.	Description	Pkg.
MDTIU7SEFGRE	34" x 36", Laminated, 100% Polyester, Moderate Soaker, White Face	2 dz/cs

Custom Linen Program

Following are options for applying your logo that create lasting and quality impressions of your facility:

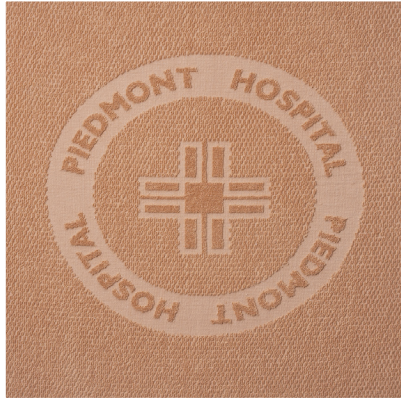

Kaumagraphy

This smart and economical solution uses a heat stamp technique that enables your logo to stand up over time to repeated industrial washings.

Custom Embroidery

High-quality thread and precision stitching can accommodate multiple colors and fabrics to provide a luxurious look to any of your products.

Woven

Your logo or name is woven directly into your product during the manufacturing process, creating a tailored look that will stand for the life of your product.

Continuous Imprint Marking (CIM)

Permanently imprint your message in your choice of custom color options.

Special touches call for a special process

Minimums and set-up fees may apply. Ask your Medline Representative for details on these simple but powerful solutions.

Custom Cart Covers

The Centers for Medicare and Medicaid Services (CMS) recommends to “handle, store, process and transport linens, so as to prevent the spread of infection.”¹

Providing the proper fit and coverage requires custom sizing your cart covers.

We’ve streamlined our ordering process to make it easier than ever to get the exact custom cart covers you need. Plus, they’re built to last, with strong double-stitched reinforced vinyl and heavyweight nylon materials.

You can create custom covers for virtually any equipment in your facility, including:

- Polyvinyl bulk trucks
- Tilt trucks (covers and liners)
- Morgue carts
- Suture carts
- Housekeeping carts
- Utility carts
- Crash carts
- Computer carts
- OR machines
- Catheter carts
- Beds in storage
- ...and more
