

Medline Remedy® Clinical Protectants

Remedy Clinical Zinc Oxide Paste Skin Protectant is useful in treating skin breakdown caused by wetness, urine and stool.

Zinc Oxide Paste

- White petrolatum-based (57%) and zinc oxide (17%) formulation seals out wetness on irritated skin
- Indicated for the relief of discomfort associated with skin breakdown caused by wetness, urine and/or stool
- Formulated without menthol or other analgesics that may cause a burning sensation on sensitive skin
- Temporarily protects chapped or cracked skin, minor cuts, scrapes and burns
- Micronized Zinc creates a smooth texture that is easier to apply and remove
- Gentle enough for use on the most fragile skin, suitable for pediatrics and geriatrics
