

NAVICA™ SYSTEM

A COMPREHENSIVE DIGITAL PLATFORM FOR SUPPORTING YOUR COVID-19 TESTING PROGRAM

The NAVICA™ System includes a suite of mobile applications and an easy-to-use online portal that work with Abbott rapid COVID-19 tests to help individuals and organizations make informed decisions with greater confidence.

NAVICA™ Consumer App

Individuals use this mobile app when getting tested, and to view and share results from select Abbott rapid COVID-19 tests.* The app is available at no charge on the App Store™ and Google Play®.

NAVICA™ Connect Portal

Organizations use this web portal to help manage testing sites that administer Abbott rapid COVID-19 tests, manage testing populations (such as who gets tested and how often), and monitor test results.**

NAVICA™ Administrator App

Testing sites use this tablet app to provide results from select Abbott rapid COVID-19 tests directly to consumers through the NAVICA Consumer App.

NAVICA™ Verifier App

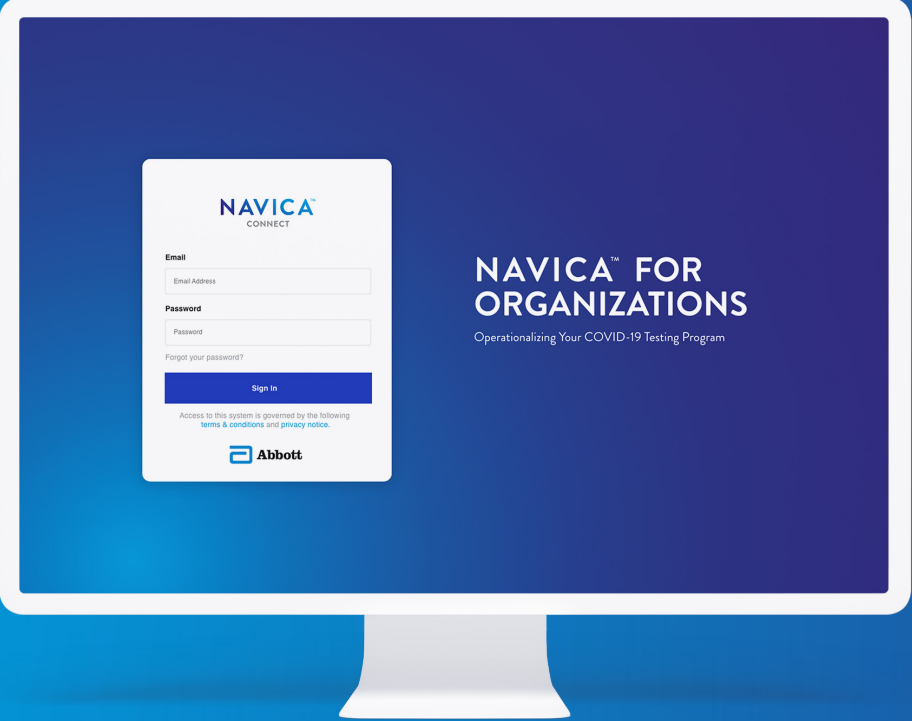

Organizations use this mobile app to confirm authenticity of a participant's NAVICA™ Pass, which verifies that the individual has received a recent negative Abbott rapid COVID-19 test result.

* A negative test result will generate a digitally encrypted NAVICA Pass, similar to an airline boarding pass. NAVICA-enabled organizations will be able to verify an individual's negative COVID-19 test result by scanning the NAVICA Pass to facilitate entry into organizations.

** The NAVICA Connect Portal includes an option to report all COVID-19 test results to state authorities.

NAVICA™ SYSTEM WORKFLOW

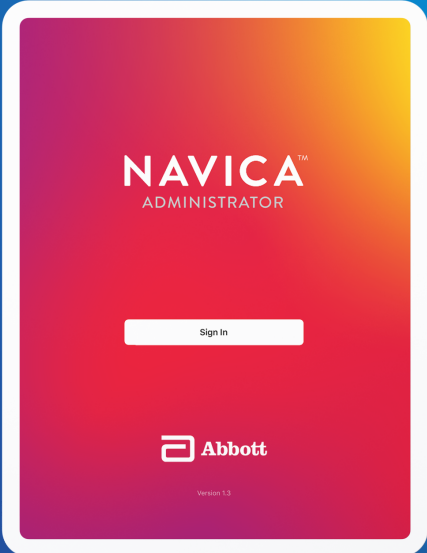

NAVICA™ CONNECT PORTAL

Manage test administrator accounts

NAVICA™ ADMINISTRATOR APP

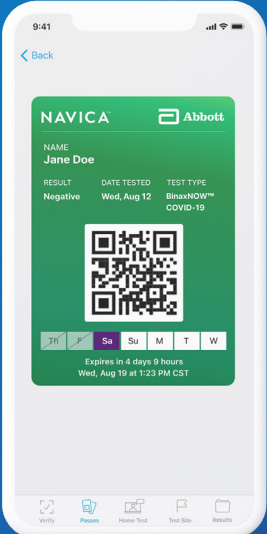

Manage program participants

Participant can share results with organization for monitoring

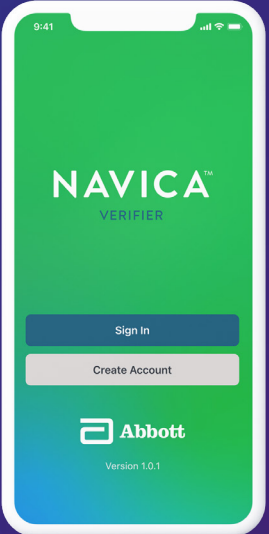

NAVICA™ CONSUMER APP

Test results provided directly to participant

Organization can confirm authenticity of NAVICA™ Passes presented by participants

NAVICA™ VERIFIER APP
