

# Self-care oral care caddy

## Infection Prevention

Help satisfy the VA oral care mandate to reduce the risk of NV-HAP

To help meet the Veterans Health Administration oral care initiative to reduce the incidence of non-ventilated healthcare-associated pneumonia, we've created the oral care caddy.

This self-contained, economical kit contains all the essential items needed to help perform successful oral care at the bedside or in an ambulatory setting. This includes DuoCare™, a powerful 2-in-1 oral rinse that combines a soothing moisturizer with an effective antiseptic—0.1% cetylpyridinium chloride or CPC.

### Advantages:

- Built-in rinse receptacle
- Educational packaging and barcode help drive oral care compliance
- Each caddy provides necessary supplies for up to one week

Includes ADA Seal of Acceptance toothbrush

MDSNVDC

Item No.	Description	Pkg.
MDSNVDC	DuoCare oral care caddy	12/cs
