

FitRight® Extended Use

Disposable Underpad

An underpad that protects like nothing else on the market

This new hybrid Fitright underpad offers exceptionally high absorbency without the prohibitive cost. By wicking wetness into the core, these pads help keep skin dry and protected to reduce the risk of costly, negative outcomes that often occur due to incontinence-associated skin damage.

5X more absorbent than competitive underpads

Soft Quilted Topsheet

Provides a soft feel for sensitive skin

Absorbent Core

Wicks moisture into the core for skin protection and odor control

Gray Backsheet

Waterproof outer layer
