

TheraFace Mask Glo PDP Copy

Product Name

Therabody TheraFace Mask Glo - Clinically Proven LED Skincare Mask for Glowing, Healthier-Looking Skin

Product Description

TheraFace Mask Glo is a dermatologist-approved, FDA-Cleared LED mask that combines Red, Red + Infrared and Blue light with a relaxing scalp massage for glowing, healthier-looking skin.

Featuring 504 scientifically calibrated medical-grade LEDs and a cordless, lightweight, breathable design, it provides an effective, full-face treatment in just 12 minutes. Clinically proven to improve radiance, firmness, tone and texture and visibly reduce sagging in 12 weeks¹, with undereye wrinkles and fine lines improving in as little as 8 weeks¹ — all at our best price yet.

With the touch of a button, the preset treatment cycles through 4 minutes each of Red, Red + Infrared and Blue LED light therapies to boost collagen production while targeting wrinkles, discoloration and mild to moderate acne.

Protective eye shields and a cordless, breathable design allow for hands-free comfort and multitasking, with 99% of participants confirming effortless daily use², while Therabody's proprietary VibraWave™ technology offers a gentle scalp massage for a relaxing, spa-like experience at home.

**Results¹ and perceptions survey² based on a 12-week study with 104 subjects using the pre-programmed 12-minute treatment once daily. Learn more at therabody.com/science*

³Based on results from 12-week clinical study with 104 healthy subjects, half with self-reported sensitive skin, and 1x/day use of pre-programmed 12-minute treatment. No adverse events reported. Consult with your physician for individualized skin health concerns. Learn more at therabody.com/science

Product Features

1. 3 types of science-backed LED light therapy address specific skin concerns for clinically proven results: Red Light therapy helps reduce fine lines, wrinkles and dark spots; Red + Infrared Light stimulates collagen production and firms skin; Blue Light fights acne and acne-causing bacteria.
2. 504 medical-grade LEDs, enhanced by Therabody's proprietary PrecisionLED™ technology, deliver optimal, clinically proven light doses for consistent, full-face treatment of every skin type — including sensitive skin³.
3. The preset 12-minute treatment cycles through 4 minutes of each light therapy to boost collagen production while diminishing wrinkles, discoloration and acne. Or choose from individual 4-minute Red, Red + Infrared, or Blue light treatments for personalized results.
4. Our proprietary VibraWave technology provides a gentle scalp massage with 3 settings for a spa-like experience — Relax for low-frequency, Refresh for higher-frequency, and Relieve for a wave-like sequence. Use on its own as a 12-minute treatment or turn off during any LED therapy.
5. Cordless, lightweight design with a breathable fit that hovers just above your skin for comfortable multi-tasking without cords or clunky remotes — 99% of participants in clinical trial reported effortless daily use².
6. Made with medical-grade silicone and a smooth matte finish for easy cleaning at home or on the go.
7. Science is the foundation of Therabody's product development, with 26 completed studies, 25 ongoing and 75,000 supporting scientific articles. Every product is scientifically validated from concept to completion for trusted results. TheraFace Mask Glo is an FDA-cleared medical device.
