

## Emesis Bags

McKesson Emesis Bags are designed as an effective waste collection method. Caregivers can easily twist the bags closed and hook them into the notched rings to help reduce odors. The twist and hook enclosure also provides a way to help prevent contamination. Our emesis bags are graduated in 4 fl oz. increments to allow for monitoring of content volume. Medical staff can hang the bag near patients to avoid any spills.

### Features and Benefits

- Simple twist and hook closure for quick disposal
- Helps to prevent spills and minimize exposure to emesis
- Graduated markings to measure oz. and cc/mL
- Convenient containment system helps trap in odors
- Available in blue
- Not made with natural rubber latex
