

Confiderm® 3.8 Nitrile Exam Gloves

McKesson's Confiderm 3.8 nitrile exam gloves are specially manufactured to provide you with a high degree of protection and comfort. Nitrile is a perfect choice for critical environments, featuring strong puncture and chemical resistance. Soft, stretchy material helps make donning easy, quickly conforming to your hand and facilitating range of motion. The lightly textured fingertips help decrease slippage risk during a procedure. Gloves are ambidextrous and non-sterile. They feature a beaded cuff and are available in four sizes that are clearly printed on the glove boxes, making them visible in wall dispensers. This convenient time-saving feature in any healthcare setting where multiple sizes of gloves are utilized.

Features and Benefits

- Textured fingertips provide excellent tactile sensitivity and dexterity
- Improved conformability provides superior fit and extended wear comfort
- Powder-free
- Beaded cuff, standard cuff length
- Color: Blue
- Fingertip thickness: 0.07 mm (2.8 mil)
- Non-Sterile
- Made in Malaysia
- Not made with natural rubber latex
