

Transducer Covers

McKesson transducer covers are designed for ultrasound use to be used as a protective covering over ultrasound scanhead instruments and cords, offering a sterile solution for a wide variety of transducers. They easily slide over transducers and are an alternative for latex-sensitive patients and healthcare professionals.

Features and Benefits

- Acoustically transparent, providing distortion-free imaging solutions in the ultrasound suite
- Telescopically folded and straight-walled for added ease of gel insertion and cover application
- 24-inch length to offer additional sterile protection aiding in the prevention of cross-contamination
- Includes 20 mL, sterile ultrasound gel to improve conductivity during ultrasound diagnostics
- Includes sterile elastic band to secure transducer cover
- For single use only
- Not made with natural rubber latex except MFR# 16-1408

Satisfaction Guaranteed
 If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

Never Compromise on CareSM

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee.
