

Plastic Cups

McKesson plastic cups are designed to hold cold beverages for any occasion. The durable plastic construction provides crush and shatter resistance. Tapered designs with raised sidewall rings and double-sided wall edges enhance cup strength, grip and user comfort. McKesson cups are a recyclable alternative to traditional glasses for convenient single use with no cleanup. Translucent and clear cups allow users and caregivers to conveniently view and monitor the liquid level. Blue cups are also available.

Features and Benefits

Polystyrene Drinking Cups

- Durable plastic construction made of 100% polystyrene delivers flexibility and shatter resistance
- Tapered design with raised sidewall rings and double-sided wall edges
- Translucent and blue options available
- Not made with natural rubber latex

Polypropylene Drinking Cups

- Flexible polypropylene material for greater crush and shatter resistance
- Tapered design with raised sidewall rings and double-sided wall edges
- Clear and blue options available
- Not made with natural rubber latex

Graduated Drinking Cups

- Rigid design made of durable PET plastic provides premium level of crush resistance to securely hold liquids
- Clear cups with black graduations allow users to conveniently view and monitor liquid level
- Dual-side graduations provide approximate measurements from 50 to 220 mL (or cc) in 10 mL increments and from 2.0 to 7.5 in increments of 0.5 fluid ounces
- Not made with natural rubber latex
