

General Drape

McKesson general drapes are specifically designed with SMS fabric reinforcement to provide fluid repellency, added durability and patient comfort. The absorbent-reinforcement material provides a high rate of absorbency and absorbent capacity.

Features and Benefits

- Low-linting SMS fabric properties reduce particle generation - a known source of post-operative complications caused by bacterial transmission or foreign body contamination
- Flame-resistant polypropylene prevents ignition risks associated with the use of high-energy medical devices during surgery
- Folded drape designs with clear instructional stamps promote ease of use, aseptic presentation, and intuitive drape placement
- Not made with natural rubber latex
