

## Handheld Pulse Oximeter

McKesson handheld pulse oximeters provide continuous monitoring of blood oxygen saturation and pulse rate. They offer continuous or spot check measurement that helps minimize patient discomfort. Their multi-angle display modes provide clear O2 and pulse rate readings. They also replay data in time to give medical staff a more accurate assessment. McKesson handheld pulse oximeters are reusable and allow caregivers to monitor low perfusion.

### Features and Benefits

- Non-invasive dual working modes to measure blood oxygen saturation and pulse rate
- Adjustable backlit brightness and large 2/8" thin-film transistor display screen for easy visibility
- Ergonomic shape and simple keypad for ease of use
- Ideal for pediatric to adult use
- Not made with natural rubber latex
