

CryoTherapy Treatment

McKesson CryoTherapy Treatment offers an innovative cryosurgery system that reduces waste, and controls dosing for excellent resolution. Packaged in a convenient, reusable kit that includes a canister, applicators, cones, buds, and instructional materials. Available in two sizes (95mL or 162mL) with two treatment-specific bud designs (arrow-shaped and round) to meet your application needs. The practical replacement options make our reusable kits an economical and effective way for clinicians to cryosurgically treat a wide range of conditions with increased precision.

Features and Benefits

- -70°C - Colder temperature promotes better resolution
- Handheld, reusable kit-based device
- Contoured trigger for precise control and less waste
- Ergonomically shaped canisters for easy handling
- Supplied in a durable presentation box for easy transport and safe storage
- Quick-reference user guide included in each kit
