

FlexPress² Lite™ 2 Layer Compression Bandage System

FlexPress 2 Lite, part of the DermaPress Compression Systems line, is a complete bandage kit consisting of 1 foam padding bandage and 1 cohesive compression bandage. FlexPress 2 Lite may be worn for up to 7 days, providing effective compression for the management of edema related to venous leg ulcers and associated conditions with adequate arterial circulation and ankle circumference.

Includes:

- Layer 1 - Foam Padding Bandage 4"x 3.8yds. (10cm x 3.5m)
- Layer 2 - Compression Bandage 4"x 5.5yds. (10cm x 5m) - stretched.

Benefits:

- Provides light to moderate compression of lower leg to assist with edema management and venous blood return
- Absorbent for exudate management
- All-in-one kit to expedite dressing changes
- May be safely worn for up to 7 days

Indications:

For the management of edema related to venous leg ulcers and associated conditions.

Not made with natural rubber latex.
