

Confiderm® CL Latex Exam Gloves

McKesson Confiderm® CL latex exam gloves provide our healthcare professionals with the ultimate in tactile sensitivity, comfort and fit. At the same time, they offer a high degree of protection and durability. They have been chlorinated during the manufacturing process to break down latex protein and reduce chemical residuals. The chlorination process also helps ensure consistent surface treatment and helps provides a smooth, soft interior that offers a very comfortable fit. The gloves are ambidextrous, non-sterile and powder-free to help eliminate the risk of transferring chemical allergens.

Features and Benefits

- Contains latex
- Textured fingertips
- Soft material for comfortable fit
- Powder-free and non-sterile
- High durability and tactile sensitivity
