

Pads

Designed specifically for incontinence, McKesson pads protect against drips, drops, and leaks. Choose McKesson pads for heavy or moderate absorbency. Our pads deliver up to twelve hours of leak protection and include a fast absorption layer that traps and pulls fluids into the core. The soft, cloth-like inner and outer materials are paired with fully breathable backsheets for user comfort. The advanced softness formula ensures users receive reliable incontinence protection without sacrificing comfort or skin health—McKesson pads are free from chlorine bleaching, fragrance, parabens, lotion, and natural rubber latex and meet OEKO-TEX® STANDARD 100. An adhesive strip keeps the pad in place for a secure fit. McKesson's individually wrapped pads feature a unisex design and are available in two sizes, regular and long.

Features and benefits

- Available in two sizes, 10 inches (PADLT) and 14 inches (PADHV)
- PADHV provides heavy absorbency and PADLT offers moderate absorbency
- Delivers up to 12 hours of leakage protection
- Adhesive strip keeps pad in place for a secure fit
- Fast absorption layer traps and pulls fluid into the core
- Core features extra absorbency in the center without added bulkiness for a discreet fit
- Features soft, cloth-like inner and outer material
- Pads are individually wrapped for hygienic use and on-the-go convenience
- Discreet case packaging doesn't reveal the contents for user privacy
- Unisex design
- Not made with natural latex
