

Skin Staplers

McKesson skin staplers are designed for a wide variety of surgical procedures and wound care to close external skin tissue. The McKesson skin stapler line offers two different staples size options: regular and wide. Choose McKesson regular-sized staples for use on thin-to-medium skin or smaller or narrower incisions. McKesson's wide staples can be used on medium to thick skin or longer or wider incisions.

Features and Benefits

- Each skin stapler includes 35 preloaded, surgical-grade stainless steel staples
- Dispenses one staple each time the squeeze handle is activated
- Fixed head, molded handle and soft trigger pull for enhanced accuracy and ease-of-use
- Audible click to indicate staple is fully formed
- Clear, marked plastic cartridge for enhanced visibility of staple count to help indicate the number of staples used during a procedure
- Designed to be fired from multiple angles; ejector spring automatically disengages the staple to facilitate instrument removal in any direction
- For single use, disposable
- Not made with natural rubber latex

| STAPLE SPECIFICATIONS | | | |
|-----------------------|--------------------|-------------------|---------|
| STAPLE | SIZE | CLOSED POSITION | WIRE |
| Regular | 10.87 mm 2.9 mm | 5.88 mm 4.1 mm | 0.57 mm |
| Wide | 13 mm 3.25 mm | 6.5 mm 4.1 mm | 0.56 mm |
