

Elbow Strap

The McKesson tennis/golf elbow strap delivers compression to help reduce pain associated with tennis/golfer's elbow. The lightweight tennis/golf elbow strap features a molded foam compression pad for targeted pain relief. Constructed with soft, durable neoprene, this elbow strap can be worn on either the left or right arm to help reduce pain on the inner or outer side of the elbow.

Features and Benefits

- Delivers compression to help reduce pain due to Medial Epicondylitis (golfer's elbow) and Lateral Epicondylitis (tennis elbow)
- May be worn on either the left or right arm to help reduce pain on the inner or outer side of the elbow
- Lightweight support solution constructed of soft, durable neoprene
- Molded foam compression pad for targeted pain relief with added comfort and support
- Contact closure strap allows user to adjust the level of compression and the size to meet individual needs
- Universal design fits most patients with arm circumference up to 18 inches
- Unisex style to fit both male and female users
- **WARNING:** Neoprene supports should not be worn by individuals with known susceptibility to dermatitis or allergies to neoprene by products.
- Not made with natural rubber latex
