

CSR Sterilization Wraps

McKesson CSR sterilization wraps provide effective material to wrap instruments and equipment for autoclave sterilization. They are designed to deliver excellent barrier properties against both air and waterborne bacteria. They also offer a high degree of either wet or dry tensile strength. McKesson CSR sterilization wraps feature soft, cloth-like sheets that are easy to use and available in various sizes.

Features and Benefits

- Designed to work with both steam and ethylene oxide (EO) sterilization processes
- Helps to ensure protection against aqueous and airborne contamination
- Natural cellulose material provides durability and tear resistance
- Soft, flexible material to make wrapping easy
- Non-Sterile
- Not made with natural rubber latex
