

Dear Valued Customer,

Thank you for your recent inquiry requesting Material Safety Data Sheets (MSDS) for the Precision™ Xtra, FreeStyle Precision H, FreeStyle Precision Neo, FreeStyle®, FreeStyle Lite®, and FreeStyle InsuLinx Blood Glucose Test Strips.

According to the Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard, 29 CFR 1910.1200, MSDS's are required for products that contain hazardous chemicals at 1.0% or greater, or contain chemicals identified as carcinogens at 0.1% or greater. The Abbott Diabetes Care product(s) for which you have requested MSDS information does not meet this criteria and therefore does not require an MSDS.

Please feel free to contact our Customer Service Department, toll free, at 1-888-522-5226 if you have further questions. We are available to assist you 8 am to 8 pm, Monday through Friday (excluding holidays).

Sincerely,

Customer Service
Abbott Diabetes Care, Inc.
