ventilation should be provided when handling bulk product.

**Personal Protective Equipment****Respiratory**

- No special controls or personal protection required under conditions of intended use. In the event of a bulk spill, a NIOSH-certified air-purifying respirator equipped with HEPA -organic vapor cartridges may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits and when adequate oxygen is present. Use a positive pressure air-supplied respirator if there is any potential for an uncontrolled release or any other circumstances where air purifying respirators may not provide adequate protection.

**Eye/Face**

- No special personal protection required under conditions of intended use. In the event of a bulk spill, appropriate eye protection should be worn.

**Hands**

- No special personal protection required under conditions of intended use. In the event of a bulk spill, wear rubber or nitrile gloves.
