Most important symptoms/effects: NA

Indication of immediate medical attention and special treatment needed, if necessary

Notes to Physician: Bring the package to the physician.

5. Fire-fighting measures

Suitable extinguishing media: Water spray/fog, foam, Carbon dioxide and dry powder.
Standard protective equipment should be worn by fire fighters.
In the event of a large fire, toxic fumes containing oxides of carbon may be formed, which would necessitate the use of self-contained breathing apparatus.

Unsuitable extinguishing media: Extinguishing directly with hand.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid direct contact of the impregnating fluid with the eyes.

Environmental precautions

Do not flush and dispose of the preparation in accordance with local and national regulations.

Methods and materials for containment and cleaning up

- Methods for containment: NA
- Methods for cleaning up: Absorb any impregnating fluid onto a suitable inert material and collect mechanically with spilled product for subsequent disposal.

7. Handling and storage
