

AIR-CANE™

Walk on Air™

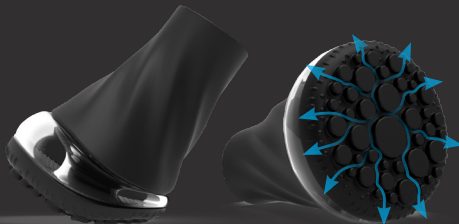

Most canes on the market are commodities—low-quality, uninspiring, and easily undercut online. **The Air-Cane sets a new standard.** Featuring a groundbreaking patented Air Handle and Flex Grip™ Air-Tip designed with Airgonomic™ technology, plus a sleek look and advanced comfort, it's the cane users notice and ask for by name. For your customers, it feels like walking on air. For you, it delivers showroom differentiation, stronger customer loyalty, and reliable margins with MAP pricing you can count on.

A cane so advanced, they'll feel it from the very first step

Less Pain, More Comfort

The innovative Air-Handle is designed to ease hand strain and fatigue from the start with the cushioned PU ergonomic grip and a built-in air bladder that adapts to each user's grip.

Confidence in Every Step

The patented FlexGrip™ Air-Tip softens every step with innovative air bladder technology, while the water-dispersing treads are designed to improve stability and helps users maneuver through wet or uneven surfaces.

Compact & Travel-Ready

Effortless travel and storage for users and caregivers alike—this collapsible 3-part design folds in seconds, slipping neatly into your bag or storing compactly when not in use.
