

Aluminum Rollator with 6" Casters

A durable yet lightweight classic customers love

Meet customer demand for quality and features at an accessible price with the **Aluminum Rollator with 6" Casters**. Packed with essential features for comfort, control, and convenience plus a tool-free setup that reduces costly returns, this rollator earns 5-star reviews without the premium price. Stock the mobility solution that builds customer loyalty while protecting your margins.

Full-Featured Independent Mobility

Users will enjoy a smooth ride over varied terrain with 6" casters, while the padded seat and removable backrest provide a stable, supportive place to rest, allowing them to stay active for longer. A zippered pouch underneath the seat provides a secure place to store essential items.

Accommodates a Wide Range of Users

The ergonomic handles adjust from 32"-37", and the strong yet lightweight aluminum frame features a 300 lb weight capacity for durable support that serves more customers.

Lightweight & Travel-Ready

Perfect for individuals with active lifestyles, this portable rollator's lightweight design weighs just 13 lb, and it stores easily with a compact fold.

Support That Exceeds Expectations

Satisfy customers from day one with tool-free assembly, durable construction, and a limited lifetime warranty that builds trust in your offerings.
