

Lap sponges and O.R. towels

Promote safety with quality products.

**Beyond
the basics**

Help make your O.R. safer, one towel and lap sponge at a time

Surgeries require total focus. This means worrying about basics, like the sponges and towels that help keep your surgical field clean, isn't an option. To help keep your attention where it's needed most, we have the basics covered—with the highest quality and largest selection of O.R. towels and lap sponges in the industry. Our complete line includes environmentally friendly options, low-linting towels to help reduce particulate and X-ray detectable products to help prevent RSIs.

O.R. towels

- Highly absorbent cotton
- Stringent weight and size standards
- Pre-washed, delinted

Partnering with you to reach zero RSIs

Unintended retained surgical items (RSIs)—including sponges and surgical instruments—left inside the patient after surgery can cause severe pain, health issues, disability and even death.

According to the Joint Commission, O.R. teams must move to more standardized counting practices that ensure all surgical items are accounted for.¹

The numbers tell the story:

\$550K

Average total costs for RSI cases²

1,500

RSI cases per year³

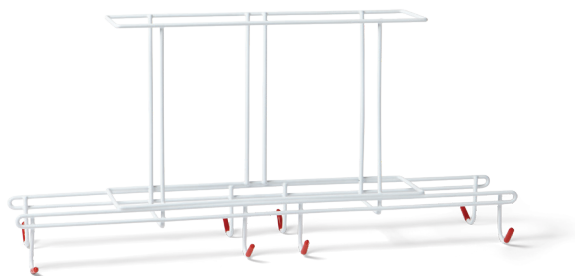

68%

of RSIs are sponges⁴

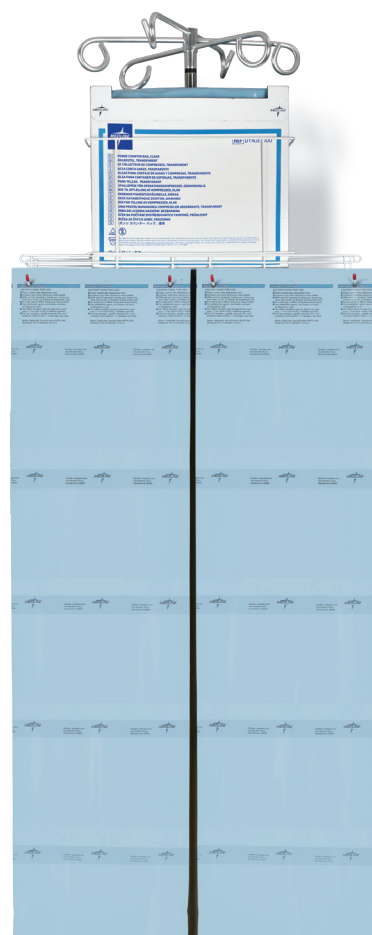

Sponge counter bags

- Easy and accurate counting bags
- Assists and organizes the counting process in the O.R.
- Advanced sponge counter rack can hold 4 sets of bags at once
